AFFIRMATION OF ISOLATION

COMPLETE IF YOU OR YOUR CHILD HAS TESTED POSITIVE FOR COVID-19 AND HAVE BEEN IN ISOLATION

I, (print name) ____________________________, do hereby affirm that I or my child isolated from (date) ________________________ through (date) ________________________ consistent with New York State Department of Health (NYSDOH) guidance. Since I or my child tested positive for COVID-19, I or my child followed one of the below NYSDOH guidances in order to be released from isolation. The complete NYSDOH Isolation and Quarantine Guidance can be found at https://coronavirus.health.ny.gov/quarantines-contacts

Isolation Guidance for the General Population including Children who test positive for COVID-19

Symptomatic COVID-19 positive cases
Since you and/or your child tested positive for COVID-19 and have or have had COVID-symptoms, you or your child must isolate for 5 days, where day 0 is the day of symptom onset.

- You can end isolation after 5 full days if you are fever-free for 24 hours without the use of fever-reducing medication and your other symptoms have improved.

- You should continue to wear a well-fitting mask around others at home and in public for 5 additional days after the end of your 5-day isolation period. If you are unable to wear a mask when around others, you should continue to isolate for a full 10 days.

Symptom-free COVID-19 positive cases
Since you are your child tested positive for COVID-19 and have had no COVID-19 symptoms, you or your child must isolate for 5 days, where day 0 is the date of the positive COVID-19 test.

- You can end isolation after 5 full days if you or your child had not developed COVID-19 symptoms during your 5-day isolation period.

- You should continue to wear a well-fitting mask around others at home and in public for 5 additional days after the end of your 5-day isolation period. If you are unable to wear a mask when around others, you should continue to isolate for a full 10 days.

Isolation Guidance for Residents in High-Risk Congregate Care Settings who test positive for COVID-19
As per guidance from the Centers for Disease Control and Prevention (CDC), residents in high-risk congregate care settings who test positive for COVID-19 should continue to follow the standard 10 days of isolation. High-
risk congregate care settings include, but not limited to, correctional and detention facilities and homeless shelters.

Complete CDC Isolation and Quarantine Guidance:

**Isolation Guidance for individuals who are moderately or severely immunocompromised and test positive for COVID-19**
Individuals who are moderately-severely immunocompromised should continue to follow the standard 10 days of isolation and seek the advice of their medical provider.

**Return-to-Work Protocols for Personnel Healthcare and Congregate Care Settings**
Individuals who test positive for COVID-19 and work in healthcare or congregate care settings should consult with their employer and follow NYSDOH guidance before returning to work.

Name of COVID-19 Positive Person: ________________________________

Date of Birth of COVID-19 Positive Person: __________________________

Symptom Onset Date (if symptomatic): _______________________________

Specimen Collection Date of Positive Test: ____________________________
