Forwarding for your review. This is the final document submitted to the Village Board at the January board meeting. The public hearing is scheduled for the February board meeting. Adoption will likely follow at the March board meeting. I did watch your last meeting on SCHOPEG. In regard to your question Bill, the Village PD has a working and collaborative relationship with both the NYS Police and SUNY PD. They are exempt from the 203 EO as you know. Why?, one may ask? Think about it. And as far as the Village of Cobleskill PD is concerned, we came to the same conclusion. We already follow NYS law. We do not wish to reinvent the wheel, and we do not wish to cause problems where there currently are none. We were in the process of updating our policies and procedures and in light of the national call to action, we are most willing to make additions to our training policies. That's it in a nutshell. Not sure if I will be there today. Stay well.
