You were right, I was watching. Frustrating not to be able to enter the discussion. Can you please clarify the difference in the availability of time for the presentation and discussion between the 5th and 12th? We were planning on no more that 30 minutes to present, wanting to leave time for discussion. Thanks - Pat

Hi Pat. My point was that I didn't want to see some of the members leave at 6:00 for their monthly committee assignments if you were still in your presentation. In other words, I want to make sure we give your group the respect it deserves after the work that I am sure you folks would be putting into the presentation. But....if you feel an hour is enough time - by all means let's go with January 5th.

Yes, I know it's hard communicating. We will continue to comply with the Governor's orders on social distancing and masks but before January 5th explore other options such as Zoom as a supplement or replacement for in person meetings depending on current regulations from the State.

Hi Bill,

This is to confirm the Jan. 5th date. That's the date both of our presenters will be available. We'll keep it short. It would be wonderful if you have some zoom options for upcoming meetings. I'm a little surprised the county has been able to continue in-person meetings this long, considering the continued and rising Covid cases. Stay safe!
